INTRODUCTION

STRUCTURE ILLUSTRATED PARTS BREAKDOWN

PARTS LIST INDEX

1. PURPOSE AND SCOPE.

2. This manual contains the Numerical Index of Part Numbers for all parts data contained in the Structure Illustrated Parts Breakdown Manuals.

3. REQUISITIONING AND DISTRIBUTION OF NAVAIR TECHNICAL PUBLICATIONS.

4. Procedures to be used by Naval Activities and other Department of Defense organizations requiring NAVAIR technical publications are defined in the NAVAL AIR SYSTEMS COMMAND TECHNICAL MANUAL PROGRAM manual, NAVAIR 00-25-100 and NAVAIRINST 5605.5, Distribution of aeronautic technical publications. To automatically receive future changes and revisions to NAVAIR technical manuals, an activity must be established on the Automatic Distribution Requirements List (ADRL) maintained by the Naval Air Technical Services Facility (NAVAIRTECHSERVFAC). To become established on the ADRL, notify your activity central technical publications librarian. If your activity does not have a library, you may establish your automatic distribution requirements by contacting the Commanding Officer, NAVAIRTECHSERVFAC, Attn: ADRL REQUEST, 700 Robbins Avenue, Philadelphia, PA 19111-5097. Annual reconfirmation of these requirements are necessary to remain on automatic distribution. Please use your NAVAIRTECHSERVFAC assigned account number whenever referring to automatic distribution requirements.

If additional or replacement copies of this manual are required with no attendant changes in the ADRL, they may be ordered by submitting a DD 1348 requisition directly to the Commanding Officer, Naval Publications and Forms Center, 5801 Tabor Road, Philadelphia, PA 19120-5099.

5. MANUAL ISSUE DATE.

6. The date on the title page is the copy freeze date. No additions, deletions, or changes are made after the manual issue date except last minute safety of flight or required maintenance changes. Data collected after the manual issue date will be included in later changes or revisions of the manual.

7. NUMERICAL INDEX OF PART NUMBERS.

8. Data is arranged in alpha-numerical sequence by part numbers to allow rapid location of part numbers. Part number arrangement starts at the extreme left position and continues, one position at a time, until all numbers are arranged. The sequence for the extreme left position is listed below:

Letters A thru Z
Numerals 0 thru 9

The sequence for the second and remaining positions is listed below:

Space (blank column)
Dash (-)
Letters A thru Z, then
Numerals 0 thru 9

NOTE

Alphabetic O's are listed as numerical zeros with the exception of its use in proper nouns. Proper nouns are used, in the part number column, instead of a dash (-) and the captions NO NUMBER and COML that appear in the part number column of the Parts List.

Page numbers (N000X-00) appear in the extreme upper right corner of each page. Letter "N" indicates numerical index page number.

9. The Publication and Figure and Index Number columns list where each part is shown in the parts list of the Structure Illustrated Parts Breakdown Manuals. For government and contractor standard parts, the publication, figure and index number is listed only at its first appearance in the Structure Illustrated Parts Breakdown Manual.

10. A blank in the index position of the Figure/Index Number column indicates that the publications/figure does not have an index number assigned.

11. TECHNICAL PUBLICATIONS DEFICIENCY REPORT (TPDR).

12. The TPDR (OPNAV FORM 4790/66) is the form for reporting errors and suspected omissions in

the technical manuals. Reporting procedures are in OPNAVINST 4790.2 SERIES.

13. SOURCE, MAINTENANCE AND RECOVERABILITY (SM&R) CODE

COLUMN. The codes in this column are assigned per NAVAIRINST 4423.3 SERIES and NAVSUPINST 4423.14 SERIES which contain definitions. A dash (-) is shown in the SM&R code column when no code has been assigned. The Aviation Supply Office P2300 series publication is to be used for the most current SM&R Code assignment information if doubt exists as to the validity of any SM&R Code listed in an IPB. Refer to figure 1 for SM&R code explanations.
